### DETAILED ACTION

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

#### *Drawings*

2. The drawings are objected to because in Figs. 2, 4, 6, 8, 11 and 12, blocks “11” and “15”; Fig. 2, “19A”; Fig. 3, “31”; Fig. 4, “45”; Fig. 5, “55” should be **functionally** labelled. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as “amended.” If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either “Replacement Sheet” or “New Sheet” pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

***Claim Objections***

3. Claims 10, 12, 16 and 18 are objected to because of the following informalities:

In claim 10 line 3, “linear” should be--low noise--.

In claim 12, line 3, “in” should be deleted.

In claim 16, line 6, “a” should be --the--.

In claim 18, line 4, “amplifier” should be --attenuator-- and “attenuator” should be --amplifier-- (see claim 17).

Appropriate correction is required.

***Claim Rejections - 35 USC § 112***

4. Claims 27-29 are rejected again under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 27 recites the limitations "the radio frequency signal", “the mixer” and “the amplifier” in lines 2 and 3 respectively. There is insufficient antecedent basis for these limitations in the claim.

Claim 29 recites the limitation "the measured radio frequency power level", the predetermined level” and “the mixer circuit” in lines 2, 3, 5 and 6. There is insufficient antecedent basis for these limitations in the claim.

Art Unit: 2622

*Allowable Subject Matter*

5. Claims 27-29 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

6. Claims 1-26 appear allowable over prior art.

*Conclusion*

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
